ABOUT ME

Hi! I am currently a third-year PhD student at City University of Hong Kong, supervised by Prof. Cong Wang. My research lies in privacy and security. Specifically, I am interested in searchable encryption and its related leakage-abuse attacks(SE/LAAs), differential privacy (DP), deep learning (DL), and their intersections.

EDUCATION

City University of Hong Kong Ph.D., Computer Science Department of Computer Science	<i>Sept. 2021 - Present</i> <i>Supervisor: Prof. Cong Wang</i>
City University of Hong Kong M.S., Computer Science Department of Computer Science	<i>Sept. 2019 - Jun. 2020</i>
South China University of Technology B.Eng., Computer Science	<i>Sept. 2015 - Jun. 2019</i>
ITMO University Exchange Student Computer Science	<i>Sept. 2018 - Oct. 2018</i>
Tianjin University Exchange Student Computer Science	<i>Sept. 2017 - Feb. 2018</i>

WORKING EXPERIENCE

City University of Hong Kong Research Assistant, Department of Computer Science	<i>Nov. 2020 - Jun. 2021</i>
China Telecom Intern Student, Internet Innovation Center	<i>Jun. 2018 - Jul. 2018</i>

PUBLICATIONS

- (Published) **Xinyan Li**, Yuefeng Du, and Cong Wang. [RangeQC: A Query Control Framework for Range Query Leakage Quantification and Mitigation](#), in *The 43rd International Conference on Distributed Computing Systems (ICDCS)*, 2023.
- (Published) **Xinyan Li**, Yuefeng Du, and Cong Wang. [When Deep Learning Meets Differential Privacy: Privacy, Security, and More](#), *IEEE Network*, vol. 35, no. 6, 2022.
- (Under Review) **Xinyan Li**, Yuefeng Du, and Cong Wang. [When Differential Privacy Meets Query Control: A Hybrid Framework for Practical Range Query Leakage Quantification and Mitigation](#).
- (Under Review) **Xinyan Li**, Yuefeng Du, and Cong Wang. [ANOLYTICS: Secure Collaborative Data Analytics with Enhanced Privacy](#).

- (Under Review) Ping Guo, **Xinyan Li**, Qingfu Zhang, Qingchuan Zhao, and Cong Wang. [Mag-Miner: Mining On-device Deep Learning Models in Mobile Apps via Electromagnetic Side Channels](#).

AWARDS & HONORS

- The Department of Computer Science Achievement Scholarships (Top 1%)
City University of Hong Kong, 2020
- Institutional Research Tuition Grant
City University of Hong Kong, 2021-2025

SKILLS

Programming Languages	Python (mainly), SQL, C/C++, JAVA
Software & Tools	HTML, LaTeX, Excel, MySQL, Jupyter Notebook
